ABOUT ME

I am a student at Vellore Institute of Technology (VIT), currently pursuing a B. Tech in Computer Science with a specialization in Cybersecurity. As a student, I am interested in exploring new ideas, developing my knowledge, and gaining a deeper understanding of the subjects I study. My academic journey at VIT provides me with opportunities to learn through coursework, assignments, practical activities, and collaborative projects. I believe that continuous learning and curiosity are essential for both personal and academic growth.

EDUCATION

2026-PRESENT
VIT VELLORE

B.Tech in Computer Science and Engineering (Cyber Security)

EXPERIENCE

1. Python-Based File Organizer
- Developed a Python application to automatically organize files into categorized folders based on file extensions.
- Utilized the os and shutil modules for file handling, directory management, and file operations.
- Implemented file categorization and search functionality to improve file accessibility.

2. Solar Irradiance Analysis Using GNU Octave
- Developed a mathematical model to study the relationship between solar panel tilt angle and estimated solar irradiance at noon.
- Applied mathematical equations and numerical integration using the trapz() function to analyze solar energy data.
- Visualized results using plots to understand the effect of panel orientation on estimated solar irradiance.

3. TB Diagnosis Support App (Prototype)
- Proposed a mobile application prototype to analyze microscope images of colourimetric assay results for tuberculosis (TB) screening support.
- Explored image-processing techniques using Python and OpenCV, including RGB and HSV colour analysis.
- Planned a Flutter-based mobile interface with a Python backend for image analysis and result presentation.

SKILLS

- Programming Languages: Python
- Database Management: MySQL
- Technical Skills: Problem-Solving, Logical Reasoning, Basic File Handling
- Soft Skills: Communication, Teamwork, Adaptability, Time Management

HOBBIES & INTERESTS

- Reading crime and suspense novels
- Learning about emerging technologies and cybersecurity
- Exploring creative digital tools and content creation
